Additional Helper Script

(For Windows PC connected to Display TV in Extended Mode Only)

```
<batch file>
START "" "C:\Program Files\Google\Chrome\Application\chrome.exe" ^
--user-data-dir="C:\ChromeKiosk" ^
--kiosk ^
--window-position=1920,0 ^
--autoplay-policy=no-user-gesture-required ^
--no-first-run ^
--disable-infobars ^
--disable-session-crashed-bubble ^
"http://<your local ip>:5000/display?kiosk=true"
```

Save this as bat file and set to run in Task Scheduler - trigger start at logon

This script assumes extended display is on right side after 1920x1080 monitor.

This script will automatically load the queue display page on connected tv on every startup
